

CORPORATE PROFILE

ABOUT 4SIGHT

4Sight is a multinational, diversified technology group listed on the General Segment of the Main Board of the JSE (ticker: 4SI).

As a multinational, diversified technology group, our purpose is to leverage our portfolio of 4Sight Automated Intelligence (4AI) technologies, people and data-focused solutions to design, develop, deploy and grow solutions for our partners—including both customers and technology vendors.

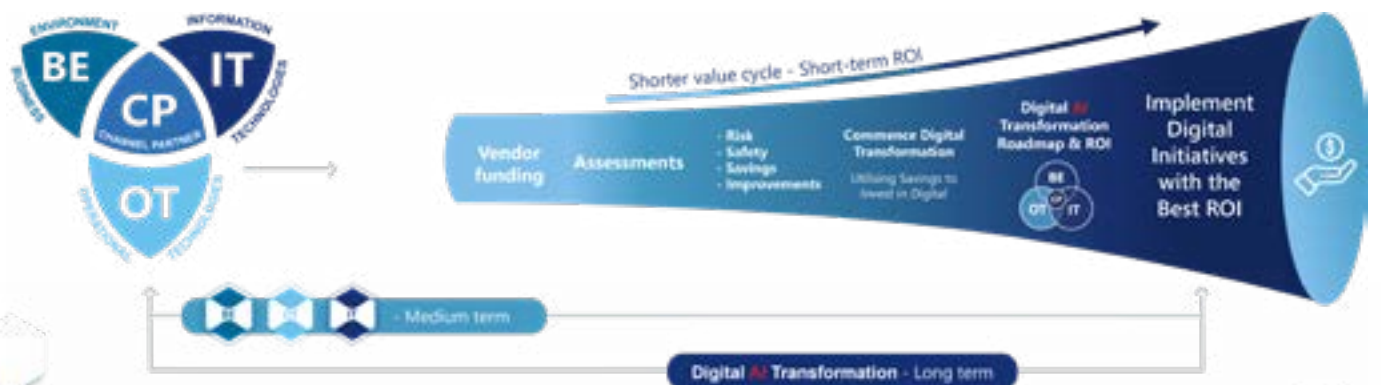

We accelerate our partners' digital journey through an approach that enables an organisation-wide transformation.

Our approach harnesses data and emerging technologies to amplify an organisation's workforce, enabling it to thrive in the modern digital economy. Digital 4AI Transformation is an ongoing journey rather than an overnight change. We assist our customers and partners in understanding their current stage in this journey and guide them in applying the right technology to progress to the next level.

"4Sight is the Frontier in Automated Intelligence"

DIGITAL 4AI TRANSFORMATION APPROACH

OUR BUSINESS MODEL

Our business model enables our partners to take advantage of products and AI solutions within our group, which will allow them to enjoy turnkey Digital AI Transformation solutions across industry verticals.

This business model is supported by a focused "blue ocean" strategy.

Customer and partner first thinking - tailored approach to ensure we're meeting our customer needs.

Give the customer and partner the **right interface** with the right person at the **right time** with the **correct domain skills and knowledge**.

Scale the offerings and synergies from our clusters' teams that create and maintain a competitive advantage.

WHY 4SIGHT?

4Sight focuses on a cross-section of established, new, and emerging technologies. These include 4Sight Automated Intelligence (4AI) solutions with machine learning, big data, cloud and business intelligence solutions, digital twins and simulation, information and operational technologies, production scheduling, horizontal and vertical integration, industrial Internet of Things, cloud service providers, robotic process automation, and augmented and virtual reality solutions.

These 4AI technologies manifest in the various solutions we deliver to customers across all industries in both the private and public sectors.

It is not only these 4AI technologies that will take us forward into the future. We do not lose sight of focusing on the foundational principles, where we still need to implement solid internal control procedures and specialise in our information technology proficiency, which historically was the core of our business.

We will continue to maintain these values and create the same level of confidence around internal control measures and corporate governance for our customers. At the end of the day, that is where business is really measured – in delivering and securing that future.

OUR OPPORTUNITY

Our strategic vision is driving real business transformation with AI-powered Intelligent Automation for businesses, through seamlessly integrating the Operational Technologies (OT) and Information Technologies (IT) worlds with the Business Environment (BE), to achieve the ultimate goal for boosting productivity across all sectors.

Our mission is to empower our partners to future-proof their businesses through Digital 4AI Transformation to take them on a journey to 4frontier, a next-generation, AI-transformed organisation - driven by a culture that embraces AI to unlock productivity and innovation through intelligent agents, automation, and data insights.

The four clusters of 4Sight focus on serving the specific needs of their target industries with their own innovative IP solutions, while leveraging their deep domain expertise. Thus empowering our customers and partners to future-proof their businesses through real business transformation with AI-powered Intelligent Automation making better and more informed decisions in the modern digital economy.

ORGANISATIONAL DNA

The Transformation Areas Within Your Business

What information can be made available?

Digitise

Digitalisation

Having the capability to digitally transform.

Digital Transformation

Which processes or operations should be modernised to achieve transformation?

4AI

Predictive intelligence and 4Sight.

4 frontier

A next-generation, AI-transformed organisation.

OUR APPROACH

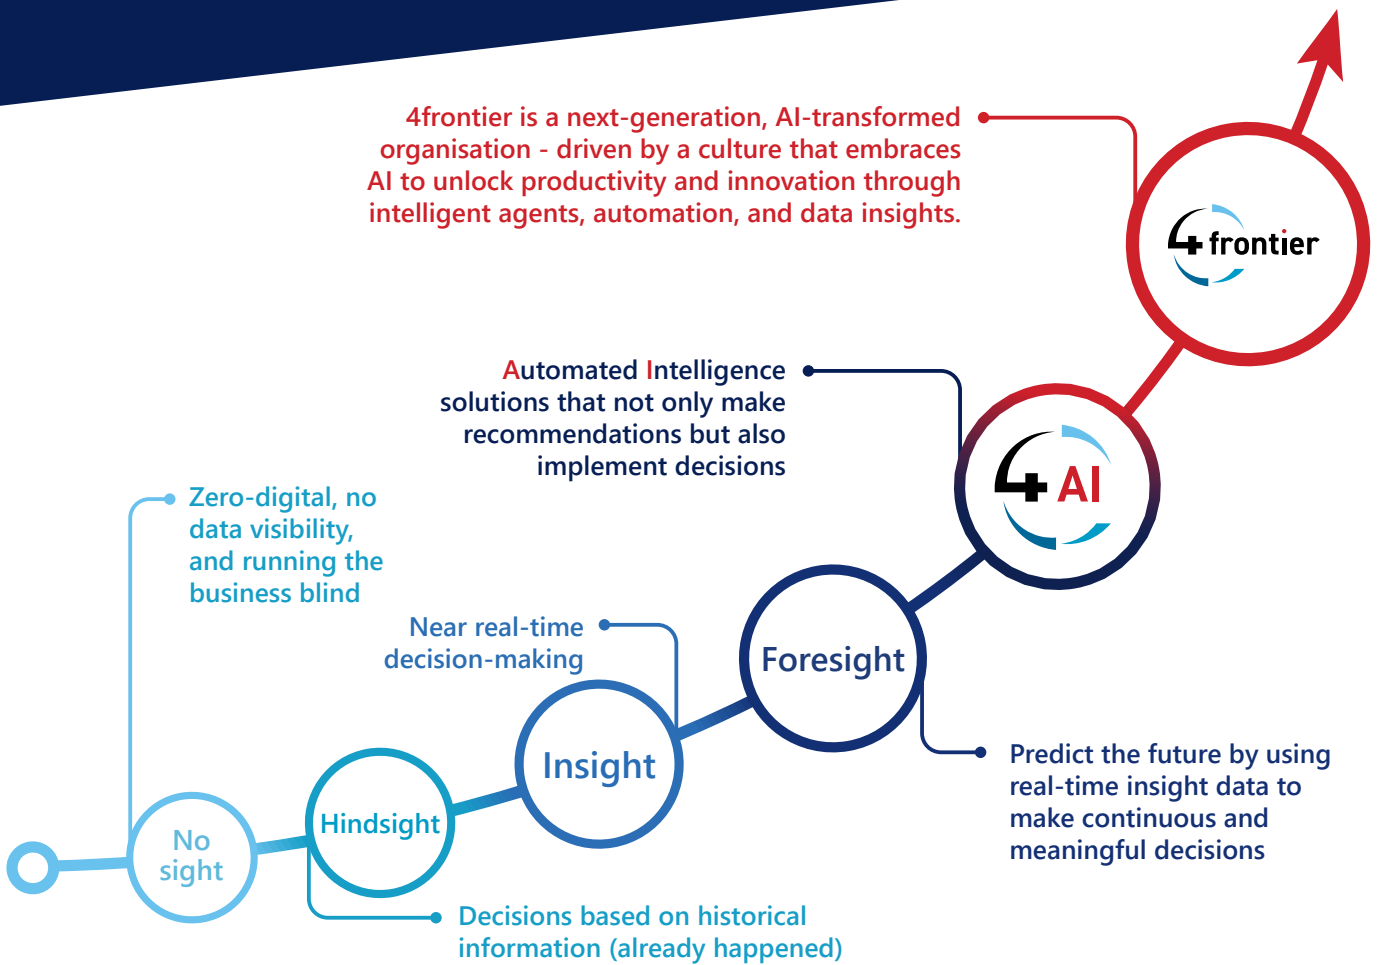

Our frameworks empower our partners to future-proof their business through digital acceleration, focusing on people- and data-centric journeys. We achieve this using hybrid-cloud technologies combined with foresight data to make better, more informed decisions.

Through our approach, we are able to take our partners on a journey from “no-sight” (zero-digital, no

data visibility, and running the business blind) to “foresight”, 4AI with Automated Intelligence and then 4frontier - a next-generation, AI-transformed organisation - driven by a culture that embraces AI to unlock productivity and innovation through intelligent agents, automation, and data insights.

Our end goal remains to transition our customers into the realm

of “4Sight”, using autonomous intelligence solutions where the technology not only makes recommendations but also implements decisions to maximise business profitability, efficiency and minimise risk.

OUR PARTNERS

Partnerships with key vendors enable us to bring our own leading solutions—built on our substantial IP—coupled with best-in-breed AI technologies to customers across various markets and industry verticals. Strategic partners include:

4Sight Holdings Limited (4Sight) is a multinational, diversified technology group listed on the General Segment of the Main Board of the JSE (ticker: 4SI). Our purpose is to leverage our extensive products and services portfolio, focused on AI technologies, people, and data-focused solutions, to

design, develop, deploy and grow solutions for our partners (customers and vendors).

The company's mission is to empower our partners to future-proof their businesses through Digital AI Transformation to make better and more informed decisions in the modern digital economy.

4Sight's business model enables its partners to take advantage of products and solutions within its group of companies, which will allow them to enjoy turnkey Digital AI Transformation solutions across industry verticals.
